

For over 130 years, our company has ranked among the leading manufacturers of textile finishing machines. We sell a range of state-of-the-art, efficient technology across the globe.

For our **SERVICE** department, we are seeking at the earliest possible date
a service technician (m/f/d)

YOUR TASKS INCLUDE

- Independent electrical/electronic commissioning, maintenance and troubleshooting
- Inspecting secondary installations and providing customer consultation
- Maintaining systems and troubleshooting malfunctions
- Determining the technical state of systems and providing customers with consultation on preventive maintenance
- Instructing and guiding customer staff
- Providing customers with technical support
- Written communication with headquarters on jobs completed

YOUR PROFILE

- Vocational training completed in an electro-technical profession (e.g. power electronics technician, electronics installer etc.)
- Excellent communication skills and strong customer orientation
- High resilience and coordination in handling jobs to be completed in parallel
- Several years of experience in the area of machine building/textile machine building engineering
- Command of the English language in speech and writing
Additional languages a plus
- Sound knowledge in using and troubleshooting PLC controls (VIPA and Siemens S7), Lenze drives (various generations)
CAN bus and Profibus communication as well as VisiWin visualisation
- Willingness to travel the globe

Are you interested? We look forward to receiving your application, including your expected salary and earliest possible start date.
